

**CCIO Enrollment Resolution & Reconciliation, Form 1095-A Data Reporting
QUOTE INSTRUCTIONS**

GENERAL INSTRUCTIONS

Your quote shall be submitted in accordance with your GSA MAS Schedule contract and the requirements set forth below.

- 1. Quote/No Quote Decisions:** Please indicate your intent to quote or not quote no later than 11:00 AM local prevailing time on **Thursday, April 30, 2026** by sending an email notice to Megan Famodu, Contract Specialist, at Megan.Famodu@cms.hhs.gov and Amberly Kovalick, Contracting Officer, at Amberly.Kovalick@cms.hhs.gov. The email subject line should read “RFQ 75FCMC26Q0068: Intent to Quote Notification.” This notification is for CMS’ planning purposes only and is not binding. You are not precluded from changing your decision.
- 2. Questions:** Written questions concerning this RFQ may be submitted via email to Megan.Famodu@cms.hhs.gov and Amberly.Kovalick@cms.hhs.gov. They are due by 11:00 AM local prevailing time on **Thursday, April 30, 2026**. For each question submitted, the offeror shall provide the document, section and page number, if applicable. Answers to relevant questions will be provided to all solicited parties. Please use Attachment 6 - QA Template for any questions.
- 3. Quote Submission:** Submit your quote and other required documents no later than 11:00 AM local prevailing time on **Thursday, May 7, 2026** as follows:

Submit an electronic copy of the quote via e-mail to Megan Famodu at Megan.Famodu@cms.hhs.gov and Amberly Kovalick at Amberly.Kovalick@cms.hhs.gov. A Microsoft Excel version of any financial charts provided with the business quote should be included with your submission. The electronic submission of your quote, including attachments, should use data compression such as WinZip and/or Zip files compatible with Microsoft Office Suite.

This RFQ does not commit the Government to pay any cost for the preparation and submission of a quote. In addition, the Contracting Officer is the only individual who can legally commit the Government to the expenditures of public funds in connection with the proposed procurement. **Please note this action is subject to availability of funds.**

Interested Offerors shall respond to all sections of Volume I: Technical Quote. In addition, Offerors must submit Volumes II, III, and IV. Any quote that is non-compliant with any requested submission requirements of this Request for Quote (RFQ) may immediately be removed from further consideration.

RFQ 75FCMC26Q0068

Attachment 2 –Quote Instructions and Evaluation Criteria

CMS intends to award a hybrid Firm-Fixed Price (FFP) and Time and Materials (T&M) Task Order for this effort. The contract period of performance will include a 3-month transition-in period, a 12-month base period, three 12-month optional periods, a 9-month optional period, and a 3-month transition-out period (optional and if exercised, will run concurrently with the last 3 months of Option Period 4).

The following documents should be submitted, separated by Volume, as outlined below:

- Volume I: Technical Quote
- Volume II: Business Quote
- Volume III: Conflict of Interest
- Volume IV: Section 508 Compliance

Electronic Submission: The Offeror shall electronically submit its quote via e-mail to Amberly Kovalick at Amberly.Kovalick@cms.hhs.gov and Megan Famodu at Megan.Famodu@cms.hhs.gov. Submission must occur by the deadline that is communicated by the Government in future instructions.

The Offeror shall include the Request for Quote number (**RFQ 75FCMC26Q0068**) on all pages of its quote including the cover letter, front cover and table of contents. A Microsoft Excel version of any financial charts provided with the business quote should be included with your submission. All files submitted should be in PDF or a Microsoft Office-compatible file format. If file size necessitates, use a utility such as WinZip to compress all files into a single archive (ZIP) file.

Indexing: Provide a table of contents to reduce extensive searching. Also, to facilitate quote review and evaluation, please follow the section nomenclature detailed in the volume section below.

Formatting: The pages shall each be consecutively numbered for each page using the “page X of X” format (e.g., page 1 of 20). Body text shall be set in 12-point with a single spacing between lines and double spacing between paragraphs. Graphs and tables shall be no less than 10-point type and single-spaced. The Contracting Officer, at her discretion, has the authority to waive minor deviations from the above specifications.

Page Limits: The Government will not consider pages submitted in excess of the stated page limitations, or materials not included in full text within the quote (no links to external information will be reviewed or considered). Page limitations include all text, graphs, pictures, appendices, references, exhibits, etc. Tabs, index sheets, tables of contents, dividers and other such aids that are solely used to assist the evaluator in locating information and are advisory in nature, imparting no other information other than the identification of content, will not be counted against any page limits stated within this RFQ.

Volumes: The Offeror shall respond to all aspects of the ER&R Statement of Work (SOW) as presented in the RFQ. The quote shall consist of four (4) volumes, a Technical Volume, a Business Volume, a Conflict of Interest Volume, and a 508-compliance volume in accordance

with the details and format specified below:

Table 1: Volume Submissions

Volume		Not to Exceed Page Limits
Volume I: Technical Quote	Section 1 – Technical Understanding and Approach	40 pages
	Section 2 –Management Approach, Quality Assurance, and Staffing Plan	
	Section 3 – Key Personnel Qualifications and Corporate Experience	
	Section 4 – Utilization of Small Business	limited to 5 single-sided pages, and is not counted against page limit
Volume II: Business Quote – with completed pricing template		No page limit
Volume III: Conflict of Interest (COI) – with completed COI attachment		No page limit
Volume IV: Section 508 Compliance – with completed CMS checklist		No page limit

Separate and Complete Volumes: Each volume shall be separate and complete, so that the evaluation of one may be accomplished independently of the evaluation of the other. Volumes shall be organized and labeled according to the section and sub-section designations explained in this document. Each volume shall be organized such that an extensive search of required documents is not necessary to review the quote.

Amendment or Cancellation of Solicitation: CMS reserves the right to amend or cancel this solicitation as necessary to meet CMS requirements.

VOLUME I: TECHNICAL QUOTE INSTRUCTIONS

The written technical quote shall describe the Offeror’s approach to meeting the requirements of the Statement of Work (SOW). The contractor shall provide a clear and concise presentation of the proposed technical approach. The presentation shall be complete and cover all aspects of the scope of work. The contractor shall provide sufficient detail in the quote to demonstrate technical understanding and capabilities of performing the requirements of the SOW. A contractor’s response that simply repeats the requirements or states “we will conform to the requirements as stated” or language to that effect, is not acceptable and will be considered non-responsive. To facilitate technical quote review and evaluation, the offeror shall follow the format shown below:

Section 1: Technical Understanding and Approach

Sub-Section 1A: Understanding of CMS’ Program and Acquisition Objectives

Sub-Section 1B: Approach to Performing the Requirements in the SOW

Sub-Section 1C: Understanding and Mitigation of Risks

Attachment 2 –Quote Instructions and Evaluation Criteria

Section 2: Management Approach, Quality Assurance and Surveillance Plan, and Staffing Plan

Sub-Section 2A: Management Approach

Sub-Section 2B: Quality Assurance Approach

Sub-Section 2C: Staffing Plan

Section 3: Key Personnel Qualifications and Corporate Experience

Sub-Section 3A: Key Personnel Qualifications

Sub-Section 3B: Corporate Experience

Section 4: Small Business Utilization (limited to 5 single-sided pages, and is not counted against overall Volume I – Technical Quote page limit)

The total page limit for Volume I - Technical Quote is forty (40) single-sided pages.

Technical content shall be included in the page limit and shall not be included in appendices. Pages may be allocated across chapters as the offeror sees fit. Cover pages, title pages, table of contents, the glossary of abbreviations and acronyms, resumes, and letters of commitment shall not count against the page limitations. Resumes shall be limited to two pages each and shall be included as an appendix. No material in excess of the page limits will be read or evaluated. In addition, utilization of small business information will not be counted toward the page limit.

VOLUME I, Section 1: Technical Understanding and Approach

This section of the written technical quote shall demonstrate the Offeror's understanding of the SOW's requirements, as well as the soundness and feasibility of delivering the proposed product(s) and/or service(s) within the operational constraints of the CMS environment.

The Offeror's Technical Understanding and Approach Section shall consist of the following sub-sections:

Sub-Section 1A: Understanding of CMS' Program and Acquisition Objectives

Offerors shall provide a narrative showing understanding of the background, vision, task order objectives, and desired program and task order outcomes for the Enrollment Resolution & Reconciliation, Form 1095-A Data Reporting (ER&R).

Sub-Section 1B: Approach to Performing the Requirements Identified in the SOW

Offerors shall provide a narrative of their technical approach for meeting all of the requirements and tasks identified in the SOW (except for Task 1: Program Implementation and Oversight, Task 11: Transition-Out (Optional) and Task 12: Transition-In (Optional). The approach for Task 1, Task 11, and Task 12 should be covered under Sub-Section 2A: Management Approach). While adhering to CMS' broad goals and requirements, Offerors are encouraged to propose innovative and efficient solutions to meet the ER&R goals and objectives. The approach should be detailed, complete, and consistent. Offerors are encouraged to provide clear, succinct process flow diagrams, tables, charts, and other visual aids to demonstrate their proposed processes and techniques. A narrative of the Offeror's technical approach shall address each of the

following tasks (and associated sub-tasks) identified in the SOW:

- Task 2: ER&R Issuer Disputes
- Task 3: Form 1095-A Consumer Disputes
- Task 4: Complex Case Help Center (CCHC)
- Task 5: Updating the FFE
- Task 6: Notice Generation
- Task 7: Telephone and Correspondence Support
- Task 8: IT Systems
- Task 9: Standard Operating Procedures (SOPs) Business Requirements and Quality Assurance
- Task 10: Ad Hoc Work and Special Projects

Sub-Section 1C: Understanding and Mitigation of Risks

Offerors shall identify the most vital, potential high-level program related risks along with a possible mitigation strategy for each. The risks identified should cover the full scope of the project. This discussion shall address what could potentially cause disruption during contract performance and degradation of performance, result in increased costs or require increased Government oversight, and explain how those risks will be avoided and mitigated. In addition, the Offeror shall explain the processes they would undertake to identify additional risks and mitigate those risks throughout the life of the contract.

VOLUME I, Section 2: Management Approach, Quality Assurance, and Staffing Plan

This section of the written quote shall demonstrate Offeror’s approach to providing effective management tools, techniques, and methodologies that will be used to manage the task order performance. The Offeror’s submission shall consist of the following sub-sections:

Sub-Section 2A: Management Approach

The Offeror shall propose a comprehensive management approach with sufficient level of detail to demonstrate how all the work under this task will be performed, monitored, and controlled, which shall cover all the aspects of the project management knowledge. The narrative shall include Project Implementation and Oversight, Financial Planning and Management, Risk Planning and Mitigation, Issue Resolution, and Communications with all stakeholders, consistent with Task 1 requirements. The narrative of the Offeror’s management approach shall address appropriate areas of Task 1: Program Implementation and Oversight (PI&O), Task 11: Transition-Out and Task 12: Transition-In, as described in the SOW. Management approach shall address the procedures to be employed in handling a number of different tasks that are proceeding simultaneously. It shall indicate if any of the tasks of the task order will be subcontracted and how any subcontractor work will be monitored.

At a minimum, the Offeror shall provide the following:

- Scope management: processes required to ensure that the project covers all the

Attachment 2 –Quote Instructions and Evaluation Criteria

required work, tools, and techniques used to manage the project scope, including identifying any problems and/or changes within the structure of the work plan.

- Time management: processes required to ensure a timely completion of the activities and deliverables, and corrective actions that might be required to bring expected future schedule performance in line with the project plan to ensure completion of project milestones on time.
- Cost management: processes required to ensure that the project is completed within the approved budget; includes budget monitoring, cost control, detecting and understanding variances (if any) and providing explanation and corrective action for those variances.
- Communication management: protocol required to set up the lines of communication and ensure timely and appropriate generation, collection, dissemination, storage, and ultimate disposition of project information; includes the methodology for communicating status, issues, and risks to CMS, through the COR.
- Information Security and Privacy management: processes to ensure that sensitive data such as Personally Identifiable Information (PII), Protected Health Information (PHI), financial data, and other sensitive information internal to CMS will be protected.
- Indication if any of the tasks will be subcontracted and how any subcontractor work will be monitored and controlled.
- Key milestones for each task, and target dates by which these milestones will be reached as applicable.
- An organizational chart that clearly provides an understanding of the roles and responsibilities and placement of proposed personnel. In the event the Offeror utilizes subcontractors, the organizational chart shall identify which staff are subcontractors, and/or which tasks will be subcontracted. In addition, provide designation of labor categories with key personnel noted and the geographic location of each individual—city, state.
- Transition-In Plan for transferring knowledge from the incumbent contractor to ensure a seamless transition and ensure that operations are not impaired.
- Transition-Out Plan for handing over work to an incoming contractor or to CMS, to ensure a seamless transition and ensure that operations are not impaired.

Sub-Section 2B: Quality Assurance Approach

The Offeror shall propose a Quality Assurance methodology to be used to ensure that quality services and products that meet the Government's requirements will be provided during the task order performance. The Quality Assurance approach shall address, but is not limited to addressing, the following:

- Performance Management and Quality Control Methodologies and Approach
- Performance Controls and Monitoring Techniques
- Roles and Responsibilities of individuals accountable for Quality Control
- Acceptable Quality Levels
- Performance Analysis of the Contractor's work

Attachment 2 –Quote Instructions and Evaluation Criteria

- Performance Reporting
- Performance Correction Mechanisms
- Performance Metrics and Key Performance Indicators (KPIs)
- Ensuring that the Service Level Agreements (SLAs) in the SOW are consistently maintained
- Ensuring QASP alignment to SLAs, AQLs, KPIs and define correction with escalation mechanisms.

Sub-Section 2C: Staffing Plan

Offerors shall demonstrate availability of appropriate staffing resources at all levels that have the applicable knowledge, experience, and ability to complete in parallel the wide range of tasks of this SOW including casework, development, maintenance, operations, stakeholder outreach, and technical assistance. The Offeror shall provide, but is not limited to providing, the following information:

- A description of a workforce capable of delivering the SOW tasks and requirements, shown in terms of labor mix and subject matter expertise. Staffing shall be sensitive to, and specifically address, the range of requirements by program area. Staff shall have the requisite knowledge, skills, and experience specific to the tasks to which the staff have been assigned.
- A project resources management and staffing approach, including the processes to make the most effective use of the people involved with the project with the focus on recruitment and retention of qualified personnel with the right skillset and competencies. The staffing approach should describe the roles, responsibilities, and allocations of each staff resource assigned to the effort; the approach to transitioning staff between each life cycle phase; and the approach to estimating levels of resources required.
- A description of all appropriate resources available, designating if they are currently on staff, prime or subcontractor, and how they will be utilized in the performance of the requirements and tasks stated in the SOW, including a matrix depicting labor hours by labor category and task (or subtask).
- A description of how the Offeror proposes addressing surge support during peak operational periods (e.g., 1095-A support during Jan-May timeframes) while ensuring compliance with technical guidelines, security considerations, and ensuring staff have the appropriate subject matter expertise for the work as needed.

VOLUME I, Section 3: Key Personnel Qualifications and Corporate Experience

This section of the written technical quote shall demonstrate the Offeror's proposed personnel qualifications and relevant experience working on CMS projects. The Offeror's Personnel Qualifications and Corporate Experience Section shall consist of the following sub-sections:

Sub-Section 3A: Key Personnel Qualifications

Offerors shall demonstrate experience and knowledge of the prime contractor's staff and that of any subcontractors proposed as key or integral to the Offeror's plan for leading the project team, including their education, experience on similar projects and expertise and any other professional credentials, highlighting the relevance of the staff person's skills and capabilities relative to the SOW requirement and their role on the project.

At a minimum, the Offeror shall provide the following for key personnel:

- Describe functions and duties with respect to the task order.
- Specify percent of time in person-years to be allocated to this project and its tasks.
- Detailed description of related CMS project experience, especially with data systems related to eligibility determination.
- Letter of commitment for any key personnel not presently employed by the Offeror or its subcontractor(s). The letter of commitment shall include the date of availability and how long the individual's commitment is binding, and must be signed by the individual and a corporate authorized official. Letters of commitment will not count against the page limit.
- Plan for replacement of key personnel in the event a key personnel departs the project to ensure similar qualifications and a smooth transition.
- Information on the key personnel and/or other significant leads that will be used on the project and their expertise as it pertains to achieving the goals and objectives as described in the SOW. This information should include all relevant certifications, training, and experience. For key personnel, provide (in an appendix) a current resume, indicating relevant specific experience and education. Resumes shall be a maximum of two pages each and will not count against the page limit.

Offerors shall designate the positions listed below as key personnel. Offerors may propose additional key personnel, if necessary, with the rationale that addresses the basis for this determination.

- Project Director
 - A minimum of 8 years' experience working with systems similar to the CMS systems and programs directly relevant to the SOW requirement and managing tasks and projects similar to those described in the SOW.
 - A minimum of 5 years of experience with the following:
 - Managing and understanding the enrollment reconciliation process
 - Managing sensitive contracts with potential for high national visibility
 - Managing contracts with Federal healthcare data
 - Managing call center and help desk operations or similar
- Project Managers:

Attachment 2 –Quote Instructions and Evaluation Criteria

- Serve as the Offeror’s representative responsible for managing the full scope of the SOW
 - Are responsible for leading the organization and obtaining the staff and resources necessary to conduct the work
 - Are responsible for all staff employed and all work performed under the contract
 - Shall be held accountable for the outcomes of the work performed and the resolution of obstacles to achieving the outcomes necessary for success under the contract
 - Have specific responsibilities include ensuring that: deadlines are met; workflow is coordinated across simultaneous, ongoing tasks; work is performed within the project’s allotted budget, and documents are provided to CMS in a timely manner and adhere to CMS’s quality expectations.
 - Ensure that any concerns raised by CMS are timely and appropriately addressed.
- Required Project Managers are as follows:
 - Project Manager (ER&R)
 - A minimum of 5 years’ experience managing major complex project and supporting a Government agency and/or commercial health programs similar to those described in the SOW
 - 5 years of experience working with systems similar to the CMS Marketplace systems
 - Active Project Management Professional (PMP) Certification
 - Project Manager (Form 1095-A & CCHC)
 - A minimum of 5 years’ experience managing major complex projects and supporting a Government agency and/or commercial health programs similar to those described in the SOW
 - A minimum of 5 years of experience working with systems similar to the CMS Marketplace systems
 - A minimum of 5 years of experience supporting management of casework
 - A minimum of 3 years of experience with call center and helpdesk operations management
 - Active PMP Certification
 - Project Manager (IT Data and Technical Support)
 - A minimum of 8 years of experience in Electronic Data Interchange protocols. CMS compliance requirements and designing, developing, and integrating IT systems similar to those necessary to meet the SOW requirements

Attachment 2 –Quote Instructions and Evaluation Criteria

- A minimum of 5 years of experience managing complex IT projects, security protocols, and system updates among various stakeholder teams.
- A minimum of 5 years of experience in standards development of American National Standards Institute (ANSI)-accredited transaction standards
- Technical Director
 - A minimum of 8 years of experience in software solutions, data analysis and analysis of electronic data interchange protocols
 - A minimum of 5 years of experience working with systems similar to the CMS Marketplace systems
- Security and Privacy Officer
 - A minimum of 5 years of experience in Information Security and Privacy supporting CMS systems and programs
 - Undergraduate or graduate degree in Cybersecurity, Security Risk Analysis, or similar
 - Active Certified Information Systems Security Professional (CISSP) Certification

Sub-Section 3B: Corporate Experience

Offerors shall demonstrate their organizational/corporate experience as it relates to the requirements of comparable scope, scale and complexity of this acquisition. Offerors shall describe prior experience with projects of similar scope, scale and complexity, specify beginning and completion dates, detail any “staffing up” and offboarding process that was used for the project, and describe the outcomes. If subcontractors are to be used for any portion of the work, the Offeror shall describe any corporate history of working with the proposed subcontractor and the subcontractor’s specific experience with projects of similar scope, scale and complexity.

VOLUME I, Section 4: Utilization of Small Business

Contractors shall document how they plan to maximize subcontracting opportunities to small businesses on this task order, illustrating how their approach contributes to achieving the RFQ goal of 15% of total task order dollars being subcontracted to small business.

Please provide the name(s) of the proposed small businesses, addresses, points of contact and phone numbers. The information above shall be provided in the following format:

Small Business Subcontractor Name	Address	Point of Contact and Phone #	NAICS, Size and Socioeconomic status as applicable	Work to be Performed	Proportion of Total Contract Value (%)	Total \$ Proposed

RFQ 75FCMC26Q0068

Attachment 2 –Quote Instructions and Evaluation Criteria

Offerors shall describe their commitment to use Small Businesses. Commitment should be as specific as possible. Please provide copies of documents demonstrating this commitment (e.g., draft subcontracting agreements, letters of commitment, teaming arrangements, etc.). Documents provided shall describe the work that will be performed by the small business subcontractor. *(Documents may be provided as an attachment and will not count towards the page limitation).*

If a small business is submitting as a prime contractor, they should address the portion of the work they are completing versus the amount of work they plan to subcontract to another contractor.

VOLUME II: BUSINESS QUOTE INSTRUCTIONS

The Offeror shall set forth its proposed prices on a Time & Materials (T&M) and Firm Fixed Price (FFP) basis for each task for the base and all option periods per the table provided below, in accordance with its established GSA Schedule or catalog prices. Pricing shall adhere to the format of the pricing template provided and be consistent and complete for all tasks for base period of performance and all options. The business quote shall be based on and include all the periods of performance included in the RFQ.

Table 2: Contract Type by Task

Task : Description	Transition In Period (Optional)	BP	OP1	OP2	OP3	OP4
Task 1: Program Management		FFP	FFP	FFP	FFP	FFP
Task 2.1: Low Complexity Issuer Disputes		FFP	FFP	FFP	FFP	FFP
Task 2.2: High Complexity Issuer Disputes		T&M	T&M	T&M	T&M	T&M
Task 3.1: Low Complexity 1095-A Disputes		T&M	T&M	T&M	T&M	T&M
Task 3.2: Medium Complexity 1095-A Disputes		T&M	T&M	T&M	T&M	T&M
Task 3.3: High Complexity 1095-A Disputes		T&M	T&M	T&M	T&M	T&M
Task 4: Complex Case Help Center (CCHC)		T&M	T&M	T&M	T&M	T&M
Task 5: Updating the FFE		FFP	FFP	FFP	FFP	FFP
Task 6: Notice Generation		FFP	FFP	FFP	FFP	FFP
Task 7: Telephone and Correspondence Support		FFP	FFP	FFP	FFP	FFP
Task 8: IT Systems		T&M	T&M	T&M	T&M	T&M
Task 9: Standard Operating Procedures (SOPs) Business Requirements and Quality Assurance		FFP	FFP	FFP	FFP	FFP
Task 10: Ad Hoc Work and Special Projects		T&M	T&M	T&M	T&M	T&M
Task 11: Transition-Out (Optional)		n/a	n/a	n/a	n/a	T&M
Task 12: Transition-In	T&M	n/a	n/a	n/a	n/a	n/a

The Offeror shall provide in the written narrative any explanations the Offeror deems necessary for the Government to understand the pricing proposed. The written narrative does not have a page limit.

The Offeror shall specify if a discount or most favorable customer rate has been offered or not to its GSA Schedule rates.

The anticipated (subject to change) periods of performance are as follows:

Optional Transition-In:	August 30, 2026 – November 29, 2026
Base Period:	November 30, 2026 – November 29, 2027
Option Period 1:	November 30, 2027 – November 29, 2028
Option Period 2:	November 30, 2028 – November 29, 2029
Option Period 3:	November 30, 2029 – November 29, 2030
Option Period 4:	November 30, 2030 – August 29, 2031
Optional Transition-Out:	May 30, 2031 – August 29, 2031

RFQ 75FCMC26Q0068

Attachment 2 –Quote Instructions and Evaluation Criteria

Assumptions

The assumptions provided in this document are intended to support comparable price quotes and may be subject to change during the course of the task order for T&M and FFP tasks. In addition to those provided in the SOW, the Offeror shall use the following overall assumptions in developing the price quote:

- Work will be performed at the Offeror's facilities.
- In regard to travel, assume travel only to CMS offices and/or the Washington, DC metro area.
- The escalation rate on the Offeror's GSA Schedule pricing is expected to be in accordance with what has been approved by GSA and reflective of industry standards.
- Any material, services, or ODCs and/or OLMs necessary for interfacing with issuers, consumers, Exchange, or CMS Data Services Hub will be the Offeror's responsibility
- Deliverables will be produced in accordance with the deliverables table and maintained thereafter.
- Assume staff ramp up and down for Form 1095-A consumer disputes during the tax season (January-May).
- Assume staff ramp down during the contractor transition out period.
- Assume four in-person meetings at the Government's facility per year. This number may be variable at the discretion of CMS.
- The volume for Low Complexity Issuer Disputes, Task 2.1 is approximately 4,000,000. Note: The resolution of Task 2.1, Low Complexity Issuer Disputes is an automated process.
- The monthly volumes for Tasks 2.2, 3, and 4 are as shown in the following table. These volumes are from the latest contract year and are provided to show the difference in volumes from month to month. The annual volumes are expected to decrease by approximately 10% per year for BY through OY4 for Tasks 2.2. Low Complexity 1095-A Disputes, Task 3.1, is approximately 75% automated and disputes that need to be worked manually average approximately 7 minutes to resolve. There are several different types of medium and high complexity cases for Task 3.2 and 3.3, on average these all take approximately 32 minutes to resolve:

Monthly Volumes	Dec	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Total
Task 2.2 - High Complexity Issuer Disputes	2,712	2,784	3,042	2,943	2,677	1,970	2,250	2,289	2,515	3,405	2,643	2,204	31,434
Task 3.1 - Low Complexity 1095-A Disputes	1,629	16,738	45,371	36,602	27,719	10,327	5,867	6,079	6,064	4,814	5,271	2,641	169,122
Task 3.2 - Medium Complexity 1095-A Disputes	600	7,451	19,499	15,143	13,296	4,385	2,699	2,367	1,866	1,617	2,022	740	71,685
Task 3.3 - High Complexity 1095-A Disputes	46	293	677	916	844	533	387	233	213	181	186	73	4,582
Task 4 - Complex Case Help Center (CCHC)	362	676	606	742	1,069	1,734	1,799	2,113	1,850	2,030	2,257	1,702	16,940

RFQ 75FCMC26Q0068

Attachment 2 –Quote Instructions and Evaluation Criteria

- Assume Task 6 Notice Generation yearly volume of 332,335.
- Assume Base Year volumes for Task 7 are as shown in the following table:

The average call times need to be updated due to significant volume fluctuations

Monthly Volumes	Dec	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Total
Task 7 - Telephone & Correspondence Support													
CCHC Inbound Calls	454	763	741	814	844	712	603	456	362	413	399	313	6,874
<i>CCHC Inbound Calls Avg. Handle Time (Mins.)</i>	<i>4:20</i>	<i>4:15</i>	<i>5:08</i>	<i>5:17</i>	<i>5:07</i>	<i>4:44</i>	<i>4:31</i>	<i>4:26</i>	<i>5:49</i>	<i>5:01</i>	<i>5:27</i>	<i>5:07</i>	<i>5:00</i>
CCHC Outbound Calls	1,610	1,808	1,644	2,026	2,763	5,582	6,535	6,065	7,802	8,040	8,511	6,496	58,882
<i>CCHC Outbound Calls Avg. Handle Time (Mins.)</i>	<i>4:20</i>	<i>4:07</i>	<i>4:50</i>	<i>4:36</i>	<i>3:53</i>	<i>3:03</i>	<i>2:39</i>	<i>3:09</i>	<i>2:54</i>	<i>2:31</i>	<i>2:25</i>	<i>1:20</i>	<i>2:51</i>

Pricing Template

The Offeror shall use the “Enrollment Resolution and Reconciliation, 1095-A Data Reporting Pricing Template.xls” file provided for the submission of its price Quote. The Offeror shall re-title the completed file as “*Offeror Name Pricing Worksheet*”.

The purpose of the pricing template is to facilitate consistency, traceability, and transparency in the Offeror’s proposed pricing.

The Offeror shall clearly identify the pricing elements that make up the total proposed price for each task or subtask. The Offeror shall provide a supporting narrative to explain where a data field in the pricing template is left blank or is submitted as “not separately priced.” For any pricing not based upon the Offeror’s existing GSA schedule or catalog pricing, a full cost element breakdown must be provided. The Government is requesting a price reduction in accordance with FAR 8.405-4. If discounts are provided, the contractor shall highlight the percentage of discount off each labor category and/or product.

GSA Schedule Contract

Please submit a copy of your GSA MAS Schedule Contract Category 541611 and/or 54151S, including all significant contract terms and conditions. The Government is requesting a discount off proposed GSA pricing. The offeror shall highlight the percentage of discounts off each labor category and/or product.

Labor

GSA labor categories, hours, rates, and total costs are required. To the extent that subcontractors are being incorporated into the Offeror’s GSA labor rates, subcontractor direct labor shall be

Attachment 2 –Quote Instructions and Evaluation Criteria

shown in the same manner, under a subcontract line item. The hours and rates shall be appropriate for the labor category/position title of each individual proposed. GSA MAS labor rates are expected to be discounted for this task order. If your rates change for each contract period, please clearly describe what those rates are for each contract period. For any pricing not based upon the Offeror's existing GSA schedule or catalog pricing, a full cost element breakdown must be provided. The Offeror shall also provide the number of productive labor hours that a full-time equivalent (FTE) is comprised of for the prime contractor and each Subcontractor or teaming partner.

Subcontractors or Teaming Relationships:

Subcontractor/Teaming Partner costs must be clearly delineated, and a separate detailed breakout of subcontractor/teaming partner costs must be submitted, for each proposed subcontractor/teaming partner. Subcontractor labor rates shall follow those outlined in the prime's GSA Schedule with any proposed discounts. If the contractor is part of a contract teaming arrangement (CTA), there should be separate rates for each teaming partner.

The Offeror shall provide a breakout of labor hours, labor rates, and costs for each subcontractor/teaming partner that shows the percentage of the total labor hours (including the prime), the percentage of the total costs for each subcontractor/teaming partner, including any indirect rates applied to subcontractor/teaming partner costs. Within the individual task worksheets, labor hours proposed for subcontractors/teaming partners shall be reported on a separate line from other staff with the same labor category. The name of the subcontractor's/teaming partner's company shall be specified under "Prime or Subcontractor/Teaming Partner" (column D). Do not combine Prime and Subcontractor/Teaming Partner labor on the same row. Do not combine labor from different subcontractors/teaming partners on the same row

Materials and Other Direct Costs (ODCs)

In addition to the proposed pricing to support the specified tasks, the Offeror shall also provide a basis of estimate (BOE) for any materials and other direct costs. The offeror should only quote ODCs that are part of contractor's schedule or from a contractor teaming agreement with another GSA schedule contractor, if necessary to supply materials and ODCs.

IMPORTANT: As the government anticipates that order level materials (OLMs) will be included in quotes received in response to this solicitation, Offerors should refer to GSAR 552.238-115 – Special Ordering Procedures for the Acquisition of Order-Level Materials to ensure proper understanding of OLM procedures. Offerors are instructed to confirm that OLMs are authorized on their schedule contract. Offerors are reminded that "Special Ordering Procedures for the Acquisition of Order Level Materials, specifically 552.238-115(d)(7)(i) for price reasonableness of order level materials contractor proposing must obtain at minimum 3 quotes for each order level material above the simplified acquisition." These quotes should be provided in the offerors quote response to support the proposed prices as fair and reasonable.

NOTE: Licenses required to perform tasks in the CCIIO Enrollment Resolution and

Reconciliation System (CERRS) and the Health Insurance Casework System (HICS) will be provided.

Offerors shall clarify whether they are proposing these costs as either ODCs or OLMs.

For materials and ODCs, the BOE shall include at a minimum the following information:

- Item Description: The Offeror shall provide a short description of the part or product or service being proposed, including manufacturer and part/product number, if applicable.
- The description shall include the following details:
 - Quantity
 - Unit Cost
 - Indirect Costs if applicable (G&A, Material & Subcontract, Material Handling, etc.)
 - Total Cost

If any Indirect Costs are proposed, offerors shall provide a copy of their most recent provisional rate agreement. If not available, offerors shall provide other applicable rate information in order to support their proposed Indirect Costs.

Travel

The Offeror shall provide a basis of estimate for any proposed travel in the pricing template. The basis of estimate shall include the number of trips, destination/arrival, number of people travelling, days of stay, costs for airfare, car rental/mileage reimbursement, hotel stay, and meal per diem. Any proposed non-local travel must also be justified and accompanied with a rationale in the narrative. Non-Local travel must also be approved on a case-by-case basis by the COR. Local travel, defined as travel within 50 miles, will not be reimbursed.

Pricing Summary and Supporting Worksheets

This pricing template includes a **Pricing Summary** worksheet that follows the task structure of the SOW and shows task prices by contract year.

In addition, this pricing template includes several tabs as detailed below. The tables in the summary tabs should roll up data from other tabs. Summaries for price follow the task structure of the SOW and show task prices (or hours) by contract year.

Supporting Worksheets:

Optional Transition Periods, Base Period and Option Periods Tabs: The pricing template includes tabs for each contract year, resulting in a detailed price build-up to include level of effort (labor hours), rates (\$/hour) and FTEs by labor category by task. The Offeror should populate all tabs with data and information as described in this factor. The Government requests a discount off proposed GSA pricing; the Offeror must highlight the percentage of discount from each labor category and/or product.

Attachment 2 –Quote Instructions and Evaluation Criteria

Offeror personnel should be labeled “Prime” under the column titled “Prime/Subcontractor.” Subcontractor personnel and costs should be similarly identified, to include name of Subcontractor (i.e., company name).

GSA labor categories, hours, rates, and total costs are required by task per contract year. To the extent that Subcontractors are being incorporated into the Offeror’s GSA MAS labor rates, Subcontractor direct labor must be shown in the same manner, under a Subcontractor line item. The hours and rates must be appropriate for the labor category/position title of each individual proposed. If the rates change for each contract year, clearly provide the rates for each contract year. The Government expects that GSA labor rates will be discounted for the Task Order.

Labor Rate Tab: The Offeror shall provide all GSA labor categories and rates, and discount information.

Other Direct Costs and Travel Tabs: The Offeror shall provide a Basis of Estimate (BOE) for any materials, ODC/OLMs, and Travel that are being proposed for the effort. The Offeror should only quote ODC/OLMs that are part of the Offeror’s schedule or from a contractor teaming agreement with another GSA schedule contractor, if necessary, to supply materials and ODC/OLMs.

Labor Rollup Tab: detailed instructions are provided in the tab including cell notes and examples. Do not insert new columns or delete existing columns. Offerors can leave the “CLIN/SLIN” column blank, and update it accordingly to separate out the optional transition in and out periods, as applicable.

The Offeror is permitted to add additional tabs to the pricing worksheet to provide basis of estimate or additional detail, as needed.

VOLUME III: CONFLICTS OF INTEREST

In accordance with the Conflict of Interest (AUG 2024) CMS clause included in this solicitation, the offeror shall complete and submit Attachment 3 Contractor/Offeror Conflict of Interest as Volume III, with its quote (or a document containing similar information). A response must be provided for all sections of the form even if no conflict exists. The Prime Contractor/Offeror shall conduct an analysis of each of its subcontractors' COI submissions (Attachment 4 or similar information) to ensure that the subcontractor can perform services conflict-free. The Prime Contractor/Offeror shall include each of its subcontractors' analysis with its quote. ***The Prime Contractor shall not submit the underlying Attachment 4 for subcontractor disclosures to CMS, however, the Contracting Officer may request a copy of the subcontractor submission.***

VOLUME IV: SECTION 508 COMPLIANCE

The offeror shall complete and submit all the CMS 508 Accessibility Checklists included in RFQ Attachment 4. Please refer to instructions included in the Zip file.

EVALUATION CRITERIA

Basis for Award Determination

The Government will conduct a comprehensive evaluation of each quote utilizing the “tradeoff” process to determine which quote offers the best combination of technical capabilities and estimated cost/price to the Government. The Government reserves the right to award based upon initial quote receipt if it is in the Government’s best interest. The Government also reserves the right to conduct exchanges with fewer than all Offerors. Therefore, the initial quote should contain the Offeror’s best terms.

Award will be made to the Offeror whose quote contains the combination of criteria which offers the “best value” to the Government. **All evaluation factors, other than cost or price, when combined, are significantly more important than cost or price. However, as the degree of technical equality increases between quotes, cost/price will become more important.** The task order resulting from this RFQ will be awarded to the Offeror whose quote, conforming to the solicitation, is determined to provide the “best value” to the Government. Such an offer may not necessarily be the quote offering the lowest price or receiving the highest technical rating. The combined price for the base and option periods (and any optional items) will be used in determining the “best value.”

- **Award on Initial Responses:** The Government anticipates selecting the best-suited Offeror from initial responses, without engaging in exchanges. As such, Offerors are strongly encouraged to submit their best technical solutions and price in response to this RFQ.
- **Exchanges with Best-Suited Contractor:** Once the Government determines the Offeror that is the best-suited (i.e., the apparent successful Offeror), the Government reserves the right to communicate with only that Offeror to address any remaining issues, if necessary, and finalize a task order with that Offeror. These issues may include technical and price. If the parties cannot successfully address any remaining issues, as determined pertinent at the sole discretion of the Government, the Government reserves the right to communicate with the next best-suited Offeror based on the original analysis and address any remaining issues.
- **Exchanges with Fewer than All Offerors:** The Government reserves the right to conduct exchanges with fewer than all Offerors solicited, if it is in the Government’s best interest.
 - **Best Value / Tradeoff:** The Government will conduct a comprehensive evaluation of each quote utilizing the “tradeoff” process to determine which quote offers the best combination of technical capabilities and estimated cost/price to the Government.

The technical quotes will be evaluated on the factors described below, which are listed in descending order of importance. (Factor A is more important than Factor B, Factor B is more important than Factor C, etc.). The Offeror shall provide its approach to performing the requirements set forth in the SOW for each of the evaluation factors. **All evaluation factors,**

other than cost or price, when combined, are significantly more important than cost or price. However, as the degree of technical equality increases between quotes, cost/price will become more important. The combined price for the base period and option periods will be utilized in determining the best value.

The evaluation factors noted below will measure the Government’s confidence that the Offeror understands the requirement, proposes a sound approach, and will be successful in performing the requirements of the SOW. Offerors shall provide sufficient information for the Government to determine its level of confidence in the ability of the offeror to perform the requirements of the RFQ and SOW based on an assessment of relevant experience from the contractor.

- Factor 1: Technical Understanding & Approach
- Factor 2: Management Approach, Quality Assurance and Staffing Plan
- Factor 3: Key Personnel Qualifications and Corporate Experience
- Factor 4: Utilization of Small Business

The Offeror shall provide its approach to performing the requirements set forth in the SOW for each of the evaluation factors. Quotes that do not comply with the minimum requirements outlined in the SOW will not be considered further. Quotes that merely restate the Task Order requirements, promising to carry out requested activities without providing substantive descriptions of anticipated approaches to the work will be downgraded. Similarly, quotes that merely present extensive discussion of general principles (i.e., “textbook examples”) of program evaluation theory, decision theory or research design will also be downgraded.

Quotes that are unrealistic in terms of technical or schedule commitments, or unrealistically high or low in terms of cost or labor hours, may be deemed reflective of an inherent lack of technical competence or indicative of a failure to comprehend the nature, complexity, and/or risks of the proposed work and may be grounds for rejection of the quote. As the proposed contract requires the delivery of data and written deliverables, the quality of organization and writing reflected in the quote will be considered to be an indication of the quality of organization and writing which would be prevalent in the proposed deliverable data.

The Offeror should consider in its approach how it would address CMS/CCIIO’s need for short turnaround times for specific tasks that may be identified.

VOLUME I: Technical Quote Evaluation

For Technical Evaluation Factors 1 through 4 (see table below) the Offeror’s technical quote will be evaluated for the level of confidence it provides CMS in the Offeror’s ability to successfully perform the requirements in the SOW.

The non-price evaluation factors (Technical Evaluation Factors) are listed below and are **in the descending order of importance**.

Technical Evaluation Factors
Evaluation Factor 1: Technical Understanding and Approach
Evaluation Factor 2: Management Approach, Quality Assurance and Staffing Plan
Evaluation Factor 3: Key Personnel Qualifications and Corporate Experience
Evaluation Factor 4: Utilization of Small Business (Evaluated, but not rated)

VOLUME I: Technical Evaluation Factor 1 - Technical Understanding and Approach

The Government will evaluate the Offeror’s understanding of the requirements and proposed technical approach relative to the Offeror’s technical ability to perform the requirements set forth in the SOW. Technical Approach will be evaluated to determine the extent to which the Offeror demonstrates a comprehensive, sound, efficient, and reasonable approach to performing all contract requirements and tasks (except for Task 1: Program Implementation and Oversight, Task 11: Transition-Out (Optional) and Task 12: Transition-In (Optional)). The Government will evaluate proposed methods, processes, and tools to assess the feasibility, completeness, and effectiveness of the proposed approach. The evaluation will focus on the following elements:

1. Sub-Factor 1A: Understanding of CMS’ Program and Acquisition Objectives
2. Sub-Factor 1B: Approach to Performing Requirements Identified in the SOW
3. Sub-Factor 1C: Understanding and Mitigation of Risks

VOLUME I: Technical Evaluation Factor 2 - Management Approach, Quality Assurance and Staffing Plan

The Government will evaluate the soundness of the Offeror’s approach to managing contract work, as described in the SOW’s Task 1: Program Management, Task 11: Transition-Out and Task 12: Transition-In, and to ensure successful contract performance with specific focus on:

- Sub-Factor 2A: Management Approach - Ability to develop and successfully execute the framework for managing the work under the contract.
- Sub-Factor 2B: Quality Assurance Approach - Ability to monitor the quality of deliverables and operational support.
- Sub-Factor 2C: Staffing Plan - The labor mix, IT pool, division of work between the prime and sub-contractor, and the ability to ensure that senior, junior, and subject matter expert staff will be readily available to fulfill operational tasks/sub tasks and address ad hoc requests.

VOLUME I: Technical Evaluation Factor 3 – Key Personnel Qualification and Corporate Experience

The Government will evaluate relevant background and experience of key personnel, and any subject matter expert(s). The evaluation will focus on the following elements:

- Sub-Factor 3A: Key Personnel Qualifications - Relevant educational background, professional experience, federal data or federal healthcare experience, stakeholder-

Attachment 2 –Quote Instructions and Evaluation Criteria

outreach experience, technical assistance experience, and special qualifications of key personnel.

- Sub-Factor 3B: Corporate Experience - Corporate experiences and success with engagements of similar scope, scale and complexity.

VOLUME I: Technical Evaluation Factor 4 - Utilization of Small Business (Evaluated, but not rated)

Contractors will be evaluated on how they plan to maximize subcontracting opportunities to small businesses on this task order as it relates to the RFQ goal that 15% of the total task order value be subcontracted to small business.

VOLUME II: BUSINESS QUOTE EVALUATION CRITERIA:

The Government will evaluate the offeror's total proposed price (including all applicable GSA discounts for all periods of performance and optional tasks) for the entire Period of Performance.

The level of effort for labor, labor mix, labor categories and rates, and ODC/travel will be considered to determine whether the proposed prices are realistic and reasonable. Submitted rates will be evaluated and compared to the Offeror's published GSA rates and further price reductions may be considered. ODC and travel will be evaluated to determine that they are reasonable and realistic for the work to be performed.

CMS requests a discount on the labor rates proposed for this solicitation.

NOTE: CMS will also evaluate the options under FAR 52.217-8, Option to Extend Services, which is applicable to this solicitation. Evaluation of options under FAR 52.217-8 will be accomplished by using the price offered for the last option period (divided by 9 months to get a monthly price, with that monthly price then being multiplied by 6 months) to determine the price for a 6-month option period covered by FAR 52.217-8.

VOLUME III: CONFLICT OF INTEREST:

In accordance with FAR 9.504(e) and the Conflict of Interest (AUG 2024) CMS clause included in this solicitation, the Government will evaluate the Attachment 3 "CONTRACTOR/OFFEROR CONFLICT OF INTEREST (COI)" as well as other information, as appropriate. The conflict-of-interest evaluation will not result in a score/rating as it is only applicable to the apparent successful Offeror.

VOLUME IV: SECTION 508 COMPLIANCE EVALUATION:

The Government will evaluate the successful offeror's Attachment 4 - CMS 508 Accessibility Checklist for adherence to applicable Section 508 standards for the apparent successful Offeror. This Section 508 evaluation will not result in a score/rating as it is only applicable to the apparent successful Offeror's quote.
